QUESTION 1

In a Manufacturing Cloud post production support environment, a user wants to update some of the operations in the work orders by using the Midpoint Scheduling feature. However, the user is unable to update any of the orders.

Identify two reasons.

- A. The work order operations do not have operations start or completion date.
- B. The scheduled resources are not part of the organization selected by the user.
- C. None of the operations include scheduled resources.
- D. The operations are missing sequence.

Correct Answer: CD

QUESTION 2

In a manufacturing cloud implementation, production operators want to perform work order updates using Dispatch List.

Identify two tasks that the Dispatch List allows the production users to perform.

- A. Report Component Returns
- B. Report Resource Transactions
- C. Report Receipts
- D. Report Material Transactions by Quantity and Serial Number
- E. Report Cost Transactions

Correct Answer: BD

QUESTION 3

Identify four parameters that are considered in the calculation of manufacturing lead time in Oracle Manufacturing Cloud.

- A. Resource calendars of the work centers involved
- B. The primary work definition of the item
- C. The lot size of the item

- D. The shifts are defined in the plant calendar
- E. Plant calendar exceptions
- F. Resource calendar exceptions

Correct Answer: BCDF

QUESTION 4

While creating an item in Product Information Management (PIM), the following two item templates are selected in sequence and applied.

1.

Template: Finished Goods (WIP = No, Customer Ordered = Yes)

2.

Template: Sub-assembly (WIP = Yes, Customer Ordered = No)

Identify the Item Attribute values in the application.

- A. WIP = Yes, Customer Ordered = Yes
- B. WIP = Yes, Customer Ordered = No
- C. WIP = No, Customer Ordered = Yes
- D. WIP = No, Customer Ordered = No

Correct Answer: C

QUESTION 5

During a Manufacturing Cloud implementation, the Production Supervisor wants to close the work orders for last month and wants to make sure that the work orders include the correct cost. Identify the approach to be taken by the Production Supervisor.

- A. The Production Supervisor need not include cost variances while costing last month's work orders because those can be applied directly in subledger accounting.
- B. The Production Supervisor needs to include all costs and variances in last month's work orders and close them; however, the work orders where updates are expected, should not be closed.
- C. The Production Supervisor should make sure that all costs are included while closing last month's work orders; however, variances can be included after closing the work orders.
- D. Work order costs can be updated anytime regardless of the status of the work order.

Correct Answer: B
