Correct Answer: BCD

QUESTION 4

Your customer has a large number of legal entities. The legal entity values are defined in the company segment and the primary balancing segment. They want to easily create eliminating entries for the intercompany activity.

What should you recommend?

- A. Define an intercompany segment in the chart of accounts. The Intercompany module and the intercompany balancing feature in general ledger and sub ledger accounting will automatically populate the intercompany segment with the balancing segment value of the legal entity with which you are trading.
- B. There is no need to define an intercompany segment. You can track the Intercompany trading partner using distinct intercompany receivable/payable natural accounts to identify the trading partner.
- C. Define an intercompany segment and qualify it as the second balancing segment to make sure all entries are balanced for the primary balancing segment and intercompany segment.
- D. There is no need to define an intercompany segment, the Intercompany module keeps track of the trading partners for you based on the Intercompany rules you define.

Correct Answer: B
